WARNING:

Madjax recommends professional installation. If you choose to not have this product installed by a professional, we highly recommend that you exercise caution, care, and patience when installing this product as it involves drilling holes into your cart's body.

STEP 1

Measure 6 1/4" from inside of strut canopy channel and mark a center line as shown. Using a 5/16" drill bit, drill through strut and canopy.

STEP 2

Attach front brackets to side hole of Roof Rack using 8mm x 35mm bolts as shown.

DO NOT tighten hardware.

STEP 3

Attach Rear upper bracket to rear cross member of Roof Rack using 8mm x 35mm bolts as shown.

STEP 4

Now that brackets are attached to Roof Rack, place rack on top of canopy. Insert 8mm x 60mm bolts through Roof Rack front brackets, canopy, and front strut. Hand tighten hardware until Step 7.

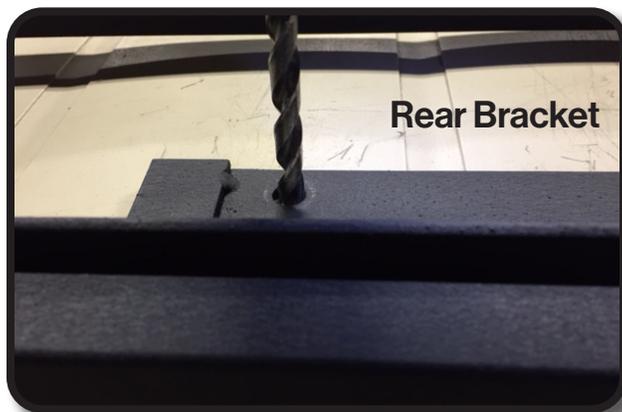

STEP 5

Using a tape measure, check rack to ensure it is square on canopy and not twisted.

STEP 6

Once rack is even on all sides use your 5/16" bit and drill through canopy.

STEP 7

Attach rear roof rack bracket to canopy using 8mm x 35mm bolts. Use rear lower bracket and spacers underneath canopy as shown. Tighten all hardware.

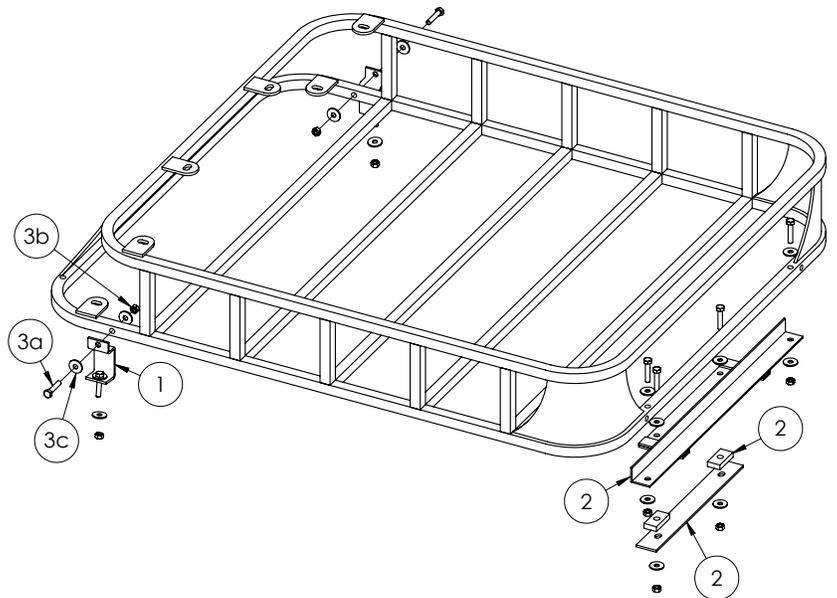

INSTALLATION COMPLETE

HARDWARE PACK

Dacromet Coated
